INTERNATIONAL FINAL CONFERENCE ON POSTING OF WORKERS DURING THE COVID-19 PANDEMIC

We are pleased to share highlights from the recent International Final Conference on "Posting of workers during the COVID-19 pandemic" held in Sofia, Bulgaria on March 26, 2024. The conference brought together delegates from various organizations to discuss current challenges and future prospects in the field.

The meeting, organized in a hybrid mode with both in-person and online participants, featured insightful discussions on the following key topics:

Project Outcomes and Scenarios: The conference aimed to present the outcomes of the project and explore possible scenarios for posted workers in the post-COVID era. Key stakeholders shared their perspectives on how the landscape has evolved in the wake of the pandemic.

Comparative Analysis: Antonio Moniz, an external expert/researcher, presented comparative results of research activities conducted in six participating countries. The discussions highlighted the varying regulations and treatments of posted workers across EU countries.

Challenges and Opportunities: Participants engaged in a constructive debate, sharing national situations and experiences regarding posted workers. The importance of understanding regulatory differences and providing input to the European Commission was emphasized.

Scenarios Report: The keynote speaker presented a report focusing on perspectives from posted workers, companies, and employers. The discussions shed light on the challenges faced by workers and employers in adapting to the new EU directive.

The conference concluded with a summary of discussions and expressions of gratitude to all participants for their valuable contributions.

We look forward to further developments in the field of posting workers and the continued collaboration among stakeholders to address the evolving challenges in a post-COVID era.
